

## Covenant Academy Athletics Needs...

2 Defibrillators- One that goes with us to away games and one that stays on campus.

We have been at an away football game where the only ambulance for that town had to leave to answer a call. Not long after they left one of our players was injured. We need to have life saving equipment available at Covenant Academy for all students and faculty whether sports related or not.

Field Work - The goal posts need to be installed and a wall/trellis needs to be constructed and painted in front of the trailer.

The goal posts on our home/practice field need to be installed. We have someone that will do this but we need the money to pay him. In addition, our field is beautiful but the trailer... A wall/trellis needs to be built in front of the trailer and painted (Covenant manpower) or vines to cover

Storage building - A building to store equipment for the practice/home field needs to be built.

We have a donor for a golf cart but we can't get it until we have somewhere to store it. The golf cart is needed to carry track, football equipment, etc. We also need storage for lawnmower and maintenance supplies as well as football and track equipment.

We want you to know what is needed and how your membership money will directly benefit our school and your family. Here is how you can help...

We need all families to join...

# The Booster Club

It's more than just a pass to all home games  
It's defibrillators, playing fields, and event buildings  
For today and for tomorrow
